

6.2 Tourist Information:

- **History Walk:**
 - **Site Boards:** Awaiting Council approval.
 - **Brochure:** Work in process.
- **Flora & Fauna Boards:** Pam reported this project has begun with 8 x Year 6 students volunteering to participate. Leonie Feutrill is working with Project Officers from KESAB/Waterwatch and Mt. Pleasant Natural Resource Management on research. The project may have to flow into early Term 4, due to other activities happening at the school, but the aim is still to complete the project and have an unveiling celebration at the Festival of Spring on 2nd November.
- **Coming Events Board:** No action at this time. Don suggested that we put this on hold until after the above two projects are completed. Agreed.
- **TIB Maintenance:**
 - **Red Gum Seat:** Don, Jim and Joe yet to action. It was suggested that the work be held off until the weather has improved, and have it ready by Festival of Spring (2.11.08).
 - **Township map:** Work in progress, in conjunction with the History Walk Brochure.

6.3 **Federation Park:** Pam tabled a letter from Bob Brooksby giving an update on developments in the Park. Pam reported that Council installed new furniture in the park last Tuesday, 5th August.

6.4 Marketing/Publicity:

Newsletter: Distributed last Tuesday, 5th August, including a questionnaire insert in regards to Health Services for Gumeracha and district. Pam tabled a draft Distribution check sheet, to be used for future distributions.

Dorothy reported that the Butcher wants more newsletters – Pam will action.

- **Press Releases:** None.
- **Website:** Don reported that Belinda Tregenza had resigned as Site Manager, and Andrew Fitzner (computer teacher for Birdwood High) had kindly agreed to take over the position temporarily, until we are able to find a permanent replacement. Letter of thanks has been sent Belinda.

6.5 **Rural Watch:** Bob reported that the first meeting for the year was held last week (*delay due primarily to Chris Bastian transferring to Mt. Barker, and Dave McKenzie on long-service leave*). They had an Internet fraud expert as guest speaker. Bob will forward information to Pam regarding a free website that has useful information. Pam will pass this on to members.

Bob also reported that there are lots of wheelie bins being stolen in the area. Chris has transferred to Mt. Barker.

Dorothy reported there is currently a major problem with car hoons late at night on the Adelaide-Mannum road by the Gumeracha weir.

6.5 Albert Street:

- **Planter Barrels:** Nothing to report.
- **Bus Shelters & Seating:** Jim has passed on the information about Adshel Street Furniture to Lyn and Dave Garwood. It is believed that the process is that we have to obtain agreement between Council and community to install a shelter, and negotiate advertising that would be placed on the shelter. A new bench seat has been installed by Council outside the Medical Practice.
- **Police Station Parking:** Still waiting for signs to be installed. Jim will check if markings will also be placed on the road.

7. Correspondence:

7.1 Incoming:

- 16.07.08: Shane Schmidt, MySponsor.com.au – introductory letter to service.
